

Grater coarse with catcher

Description

The triangle grater with innovative catcher ensures mess-free grating. The catcher behind the grating surface picks up the shavings and redirects them to where they are needed. Be it directly on the dish or in a bowl.

The coarse grater is perfect for grating vegetables for salads and Rösti. The coarse results retain a slightly crunchy texture.

When required, the 2-in-1 catcher is simply clipped under the grater. Turned over and covering the grating surface, the catcher acts as effective blade protection. It protects against injuries and ensures permanently sharp cutting edges. The grater is of high quality and extremely sharp.

A practical base with non-slip nubs and a support notch ensures a secure hold on bowls. triangle graters are available in 5 variants, stainless and dishwasher-safe.

An end holder that fits the whole series is available separately.

Dimensions: 33,00 cm * 7,20 cm * 2,50 cm

Made in China
