

Ceramic sharpening stone

Description

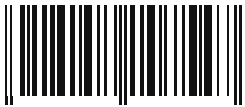

Drop-shaped special ceramic sharpening stone for triangle carving tools, carving knives and loop tools. The special shape allows to reach into fine details and to sharpen to perfection.

The functional parts consist of hardened, stainless steel. They are accurately worked on and perfectly sharpened. The handles are manufactured by a combination of high-quality Polypropylene and slip-proof Santoprene.

Stainless steel, dishwasher-safe.

Dimensions: 14,50 cm * 1,60 cm * 1,60 cm
