

Sculpting tool T6 "Villafane Studios"

Description

Sculpting tools "Villafane Studios" for sculpting and carving pumpkin, sweet potato or chocolate.

The special designed tools are developed in close cooperation with renowned US-American pumpkin artist Ray Villafane and are optimized for his special scraping technique. Due to a special manufacturing technology the loops are firmly connected to the handle to resist even pulling motions.

With non-slip Santoprene handles.

Hardened stainless steel, dishwasher-safe.

Dimensions: 13,50 cm * 1,50 cm * 1,50 cm
