

Strainer

Description

Every cook experienced it at least once: The strainer slips from the edge of the sink and a good part of the food ends up in the drain. In order to prevent this, the series of strainers has a simple but brilliant extra. Non-slip feet make sure they will not slip when placed on a sink or bowl. The 23 cm round strainer is ideal for washing fruit and vegetables and to strain rice and pasta. The strainer series with its reinforced frame and high material quality is designed to meet professional requirements and is very durable. All strainers are made of 18/8 stainless steel and are dishwasher-safe.

Dimensions: 33,50 cm * 13,00 cm * 5,00 cm
