

Coffee / tea measuring spoon Sense

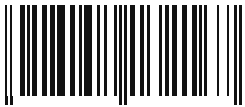

Description

The range of SENSE measuring spoons is something special. They are not only practical, but also impress with an elegant, sleek design, which makes every use a pleasure.

triangle uses regional plum wood and thus supports sustainable timber management and short transport routes. The handles are turned, then finely finished in Solingen and assembled with functional parts made of stainless steel. Of course, production is based on green electricity.

Made in Solingen / Germany.
