

Deco spiral cutter

Description

With the triangle Deco Spiral Cutter, you can create decorative spirals and flowers out of carrots.

The vegetable is turned through the Spiral Cutter as easily as using a pencil sharpener, producing endless attractive garlands. If you make grooves in the vegetable with the integrated wavy cutter beforehand, you will produce attractive spiky edges.

Vegetable garlands are always a treat for the eyes and the taste buds, making healthy eating appealing (not only) for children.

Dishwasher-safe.

Dimensions: 16,00 cm * 5,50 cm * 5,50 cm

Made in TW
