

Aroma grater

Description

Aroma Grater with special shaped plastic teeth to grind ginger, garlic, citrus peel, wasabi and much more to a fine pulp leaving unwanted fibres behind.

The stainless steel sheet surrounding the grater teeth can be lifted easily, thereby taking off the pulp from between the teeth. No more pulp that sticks to the grater. All you need to do is to slide the pulp into your dish.

For cleaning just rinse under running water or put it into the dishwasher.

Dimensions: 24,70 cm * 7,00 cm * 1,70 cm

Made in China
