

Sardine fillet slicer

Description

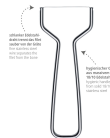

Winner of the "Solutions 2017" award.

The sardine fillet slicer solves the problem of filleting small fish like sardines and anchovies in an easy and brilliant way. Instead of using a blade a wire pulls the fillet from the backbone without cutting the bones. The fillets are practically bone free.

Replaceable wire. Hygienic, stainless and dishwasher-safe.

Dimensions: 20,00 cm * 6,50 cm * 2,80 cm

Made in China
