

Mixing spoon Spirit 270° C / 518° F

Description

Stable and high-temperature wok and ladle spoon for non-stick cookware.

The high-quality special plastic is heat-resistant up to 270° C / 518°F, so that molten edges belong to the past. The wide turner and spoon area is particularly large and the thin front edge slides easily under the food.

The massive handle design with hanging hole lies firmly and comfortably in the hand. A small groove on the back of the handle prevents the turner from sliding into bowls or pans.

Dishwasher safe.

Dimensions: 34,00 cm * 8,50 cm * 1,50 cm

Made in China
