

Fruit spoon Soul plum wood

Description

The triangle fruit spoon Soul is a real all-rounder. It hollows out melons, zucchinis, eggplants or pumpkins quickly and easily.

Thanks to its sharpened edges and semi-circular shape, it glides easily through the flesh, but prevents accidental piercing of the fruit skin. It can also be used as an ice cream scoop and for much more.

Made with a plum wood handle. For the sake of nature, all FSC®-certified wood comes from sustainably managed German orchards and private forests. The handles are turned, then finely finished in Solingen and assembled with functional parts made of stainless steel.

Naturally, they are manufactured using green electricity.

As an ideal gift, the "Soul" products are supplied in a stylish and reusable gift box. Made in Solingen / Germany.
