

Deco Twister Set, 2-piece

Description

With the triangle Deco Twister-Set, you can instantly transform fruit and vegetable into small pots or vessels. They are perfect for being used as decorative elements when filled with a tea light or may serve as a culinary vessel for creams, pies, etc.

Place the handle on the twister and twist evenly downward. Once you have reached the depth required, simply pull the twister up.

Two different twister sizes for variable results (Ø 20mm, Ø 38mm).

Food Safe. Dishwasher Safe.

Tip: The large twister has the exact diameter of a tealight. Some tealights arranged in a zucchini or sweet potato and decorated with natural materials can make an interesting centerpiece.

Dimensions: 12,00 cm * 10,40 cm * 4,00 cm

Made in China
