

Kochschultasche

Description

Whether in the professional kitchen, in the cooking school or simply for a holiday home holiday: With this spacious cooking bag kitchen tools and knives are always at hand.

The 22 padded compartments provide ample space for large and small kitchen helpers. Sturdy Velcro straps hold larger utensils in place. A large flap protects the tools from rubbing against each other. But that is not all. The flap offers 2 large zipped compartments with much additional storage space for small parts and documents.

Rolled up and fixed with two adjustable buckles, the bag and its contents are stored compactly. The bag made of sturdy polyester is delivered without contents and is washable.
