

Kochtasche Canvas

Description

Whether in the professional kitchen, in the cooking school or for travel: With this spacious cooking bag kitchen tools and knives are always at hand.

The compartments provide ample space for large and small kitchen helpers. A large flap protects the tools from rubbing against each other. Rolled up and fixed with the leather strap, the bag and its contents are stored compactly.

The bag made of naturally waxed cotton canvas comes without contents and can be wiped with cold water and a sponge whenever needed.
