

Strong Strainer with petit ring ThreeSnow

Description

This shallow standing strainer is produced by Three Snow, the Japanese specialist for high-quality strainers.

The dish-shaped strainer is a versatile kitchen tool. It is suitable for washing vegetables and for letting cool, draining or thawing ingredients, but also as a serving dish or the well-ventilated storage of fruit and vegetables.

The integrated stand ring, formed directly from the mesh, provides additional stability and raises the base off the surface, allowing liquids to drain away freely.

The relatively thick wire with a coarse 12-mesh (wires per inch) structure offers exceptional dimensional stability thanks to its high material quality and sophisticated design. The strainer can withstand loads of up to 14 kg without losing its shape.

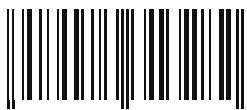

The stainless steel wire mesh is fully enclosed by the frame, making the strainer extremely durable and easy to clean in a hygienic manner.

Diameter 22 cm, height 5 cm.

Made entirely from 18/8 stainless steel, dishwasher safe, and manufactured in Japan.

Dimensions: 22,00 cm * 22,00 cm * 5,00 cm
